BUNN® VELOCITY BREW®

BREW BETTER, NOT BITTER®

BUNN Velocity Brew coffee brewers are different than other coffee makers. Unlike ordinary machines, they feature an internal hot water tank that keeps water at the right brewing temperature – so it's always ready to brew a perfect pot of coffee in about 4 minutes.

ST

- Gourmet sprayhead for freshly ground coffee
- Brews 10 cups (50 oz) at a time
- Thermal carafe
- Color: Graphite black with stainless and silver accents

NHB

- Brews 10 cups (50 oz) at a time
- Glass carafe
- Colors: Black or white, both with stainless accents
- High altitude models available

BT

- Brews 10 cups (50 oz) at a time
- Thermal carafe
- Color: Black with stainless accents
- High altitude models available

BX

- Brews 10 cups (50 oz) at a time
- Glass carafe
- Colors: Black or white, both with stainless accents
- High altitude models available

GR

- Brews 10 cups (50 oz) at a time
- Glass carafe
- Colors: Black or white
- High altitude models available

WHY BUNN® BREWS BETTER

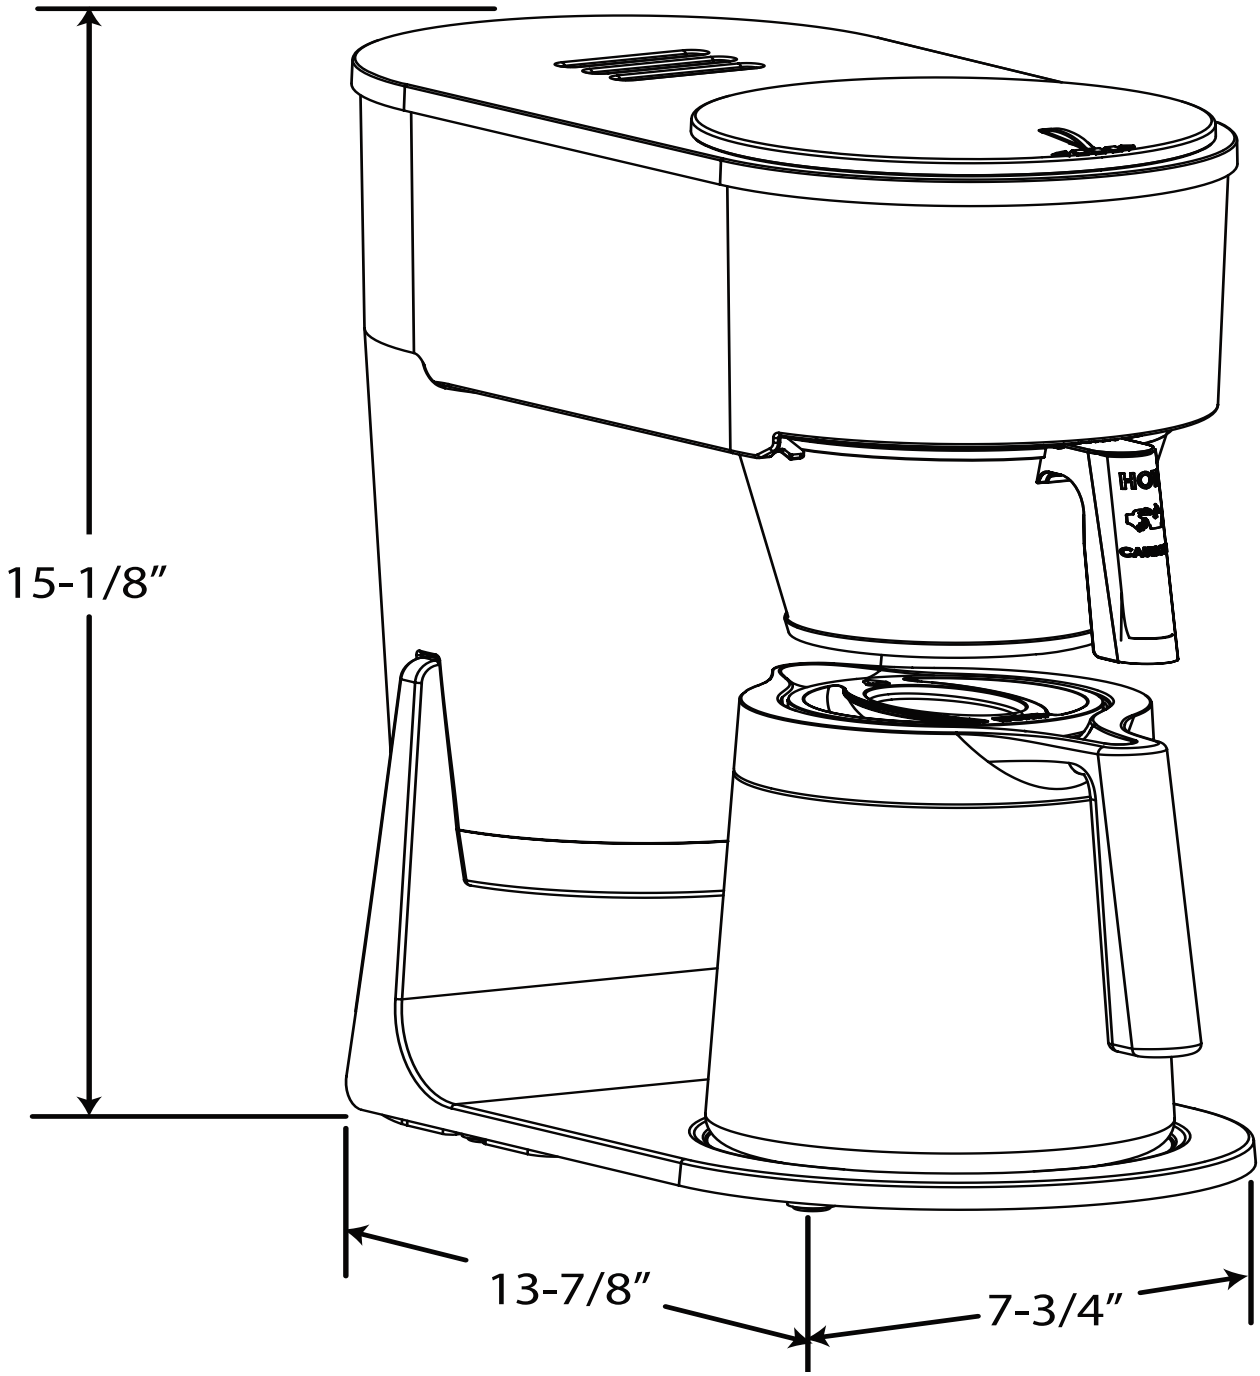

VELOCITY BREW®	VS.	TYPICAL DRIP
Brews at 200°F, the right temperature for rich coffee flavor without bitterness.		Brews at an inconsistent temperature. If water's too cold, flavor can get left behind. If water's too hot, coffee can taste bitter.
Water travels quickly through our unique sprayhead – creating the turbulence needed to wet the grounds evenly and extract perfect flavor.		Drips water slowly over grounds, so there's not enough turbulence for even flavor extraction. Some grounds are over-extracted, making coffee taste bitter.
3-minute brew cycle, the right time for rich, smooth coffee that's never bitter.		Heats water during the brew cycle, dripping it slowly onto grounds. The longer brew cycle makes coffee taste bitter.

It's our mission to help you brew, and enjoy, your best cup.

BUNN® Dimensions & Specifications

Model	Volts	Amps	Tank Heater Watts	Total Watts	Brewing Capacity	Shipping Weight	Agency Listing
ST *(Black)*	120	7	800	850	50 oz.(10 cups)	11 lbs. (4.9 kg)	UL LISTED

Electrical: Model has attached cordset and requires 2-wire grounded service rated 120V, single phase, 60 Hz.
