

# MODEL B-DGP

Item#                      Project                      Date                      Models: B-DGP

## Dual Thermal Gravity Container Brewer

**Model B-DGP**  
(Containers sold separately)

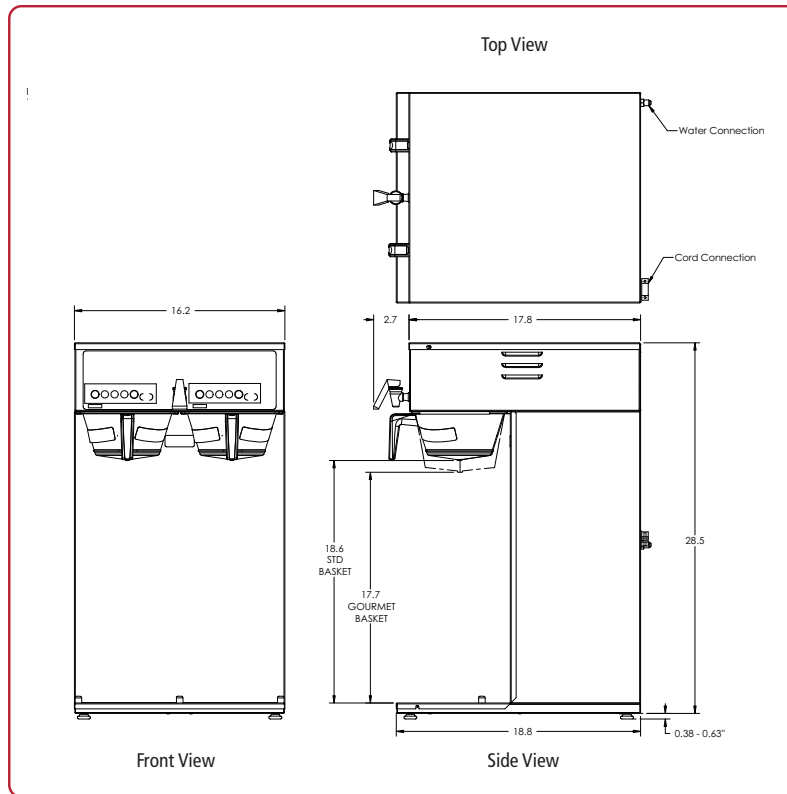

## Features

- Model B-DGP is a twin, digitally controlled brewer. It brews into 2.5L (85oz.) vacuum insulated gravity containers (Containers sold separately)
- Vacuum insulated gravity container model GP-2.5 is portable and holds fresh coffee for hours without adding heat
- High productivity - 6,000 watts of heating capacity
- Precise Brew Temperature - The brewer will hold the brew temperature to +/- 1°F during the complete brew cycle
- Brew Volume - Can be set by 'teach' mode to eliminate trial-and-error set-up
- Pulse brewing/pre-infusion - Allows the brew sequence to extract up to 20% more dissolved solids per batch of coffee. Programmable: number of pulses, pulse-on time and pulse-off time. Changing the pulse sequence does not affect the brew volume
- Low Temp/No Brew - Allows the brew cycle to begin only when the water has reached the optimum brew temperature
- Cycle Counter - The brewer counts the total number of brew cycles
- Programming Lock-Out - The brewer settings can be "locked" to prevent tampering
- Gourmet Brew basket available as an option (option 308)
