Motla **Snow Syrups.**

Our new line of PREMIUM quality snow syrups offers your customer the highest quality product available.

Formulated for sno-cone and shaved ice products.

Motla—an Eskimo word for *"snow in the mouth"*

Finest taste around —uses natural ingredients and pure cane sugar. No saccharin or corn syrups which are found in lower grade products.

Concentrate and RTU—save money and mix your own syrup from concentrates or go for convenience with RTU.

Multiple Sizes—Gallons, quarts, pints. Whatever size you customer wants, you now have it.

Labels are important. Many concession locations display their bottles and they represent an important part of attracting customers.

Many manufacturers ignore the label and offer boring, unattractive options. We spent a lot of time coming up with our new brand name; Motla, and in designing the label itself. It is fun and bright to attract attention. *Another little difference to give you the edge with Paragon product.*

Motla Choices
