RESTON LLOYD

SINCE 1972

2013 CATALOG

RÖMERTOPF®

ORIGINAL GLAZED

The Legacy of a Single Mother

Reston Lloyd is pleased to announce the arrival of the Original Glazed, Made in Germany, Romertopf. Rita Bolle first introduced Römertopf® to the United States back in 1968 with a company called Trans-Ocean-Bridge. With her hard work and cooking demonstrations, Römertopf® became a well known brand. Ms. Bolle then started her own company, Reston Lloyd, Ltd. which has been in business for over 40 years. Ms. Bolle tried to negotiate for the rights to distribute the Römertopf® line with her new company, however she was denied the distribution rights because of her status as a single mother. Letting nothing stop her, Rita Bolle developed and improved the the clay cooking pots with her Glazed Schlemmertopf line. Her success in this new bottom glazed pot became so popular, it is now a standard throughout Europe.

Beginning January 2013, Reston Lloyd will be the exclusive distributor for the United States and Canada for the Römertopf® Clay Cookers, which are made in Germany and have a glazed bottom. This is different for the USA and Canada market since Römertopf® has been known over the years to have an unglazed bottom and manufactured in Mexico. Reston Lloyd has chosen not to continue with the Schlemmertopf line, in an effort to introduce the Glazed Römertopf® to the market. Glazed Schlemmertopf's are still available and can be purchased while supplies last.

ADVANTAGES OF USING RÖMERTOPF®

Natural cooking in clay
Cooking in own juice
Additional fat, oil or liquids are hardly necessary
Vitamins and minerals are retained, as much as possible
Nothing can burn, the oven stays clean
The natural flavors are intensified
All dishes are prepared as if they cooked themselves
While Römertopf® is in the oven, you have time to do something else
Römertopf® adds elegance to your set table
Römertopf® represents traditional and modern nutritional trends

Multi-Functional Römertopf,® Square
